EDUCATION

Simon Fraser University

Bachelor of Science, Data Science

Sep 2024 - Present

Vancouver, BC

Langara College

Associate of Science, Computer Science

Sep 2021 - Aug 2024

Vancouver, BC

TECHNICAL SKILLS

Web Development: C++, HTML, CSS, JavaScript, Java, React, PHP

Data Science: Python (Pandas, NumPy, Scikit-learn), R, SQL, Data Cleaning & Preprocessing, Data Visualization (Tableau, Power BI, Matplotlib)

WORK EXPERIENCE

Community Manager

Vancouver.dev

Nov 2024 - Present

Vancouver, BC

- Organized weekly tech events and secured sponsorships. Managed community engagement and created content for social media platforms

Administrative Assistant / Assistant Center Director

Code Ninjas

Sep 2024 - Present

Richmond, BC

- Managed daily operations of a coding center, overseeing curriculum delivery for 15 students per day
- Assisted students in learning Scratch, JavaScript, and Unity

Software Developer

Simon Fraser University Robot Soccer Club (SFURS)

Sep 2024 - Present

Vancouver, BC

- Developed a complex robotics system using C++ and Python for autonomous soccer playing robots, integrating SSL Vision, Network I/O, and real time data analysis

Hackathon Lead Coordinator

Langara College Computer Science Club

Jan 2024 - Sep 2024

Vancouver, BC

- Organized Langara Hacks 2024, bringing 100+ students together for a 36-hour coding competition
- Secured sponsorships from tech companies like **Samsung**, **Microserve** and **Microserve**. Managed event logistics and coordination

PROJECTS

Data Science Project: Predictive Model for NBA Player Performance

Jan 2025

- Built a machine learning model using Python (Pandas, Scikit-learn) to predict NBA player performance based on historical data
- Cleaned and preprocessed data, applied regression and time series algorithms, and incorporated player/team changes
- Technologies:** Python, Pandas, Streamlit

SoundSurf Web Browser | StormHacks 2024 x Enactus x MESS

Oct 2024

- Created a voice-controlled browser for users with limited mobility, enhancing web accessibility
- Technologies:** JavaScript, HTML, CSS, Python, Electron.js, OpenAI Whisper AI, Defang, GPT-4 mini

Studylingo Chrome Extension | Hack The North 2024

Sep 2024

- Developed a Chrome extension integrating web summarization, a Pomodoro timer, and AI-generated quizzes to enhance study efficiency
- Technologies:** React, Python, FastAPI, Tinytune, Cohere, Defang, HTML, CSS, JavaScript, Vite

YogaMate | StormHacks 2024

May 2024

- Built an AI-powered yoga fitness app that generates personalized yoga plans and implements text-to-speech for a seamless user experience
- Technologies:** Next.js, Tailwind CSS, Python, OpenAI API

Awards & Certifications

- StormHacks 2024 x Enactus x MESS** - Finalist, Best Social Hack
- Hack The North 2024** - 3rd Prize Winner for Best Use of Cohere, Best Use of Defang
- TECHNATION (Enhancing Cybersecurity Culture and Resilience Challenge)** - 3rd Place
- StormHacks 2024** - Best Health/Wellness Hack
- Google Data Analytics Certificate**

VOLUNTEERING

Vice President | Langara Computer Science Club

- Led club events, including coding workshops on web development, React, Figma, and AI for Langara students

VOLT Volunteer Program | Langara College

- Successfully completed over **300 hours** of volunteering
